**SHIRE OF MURRAY**  
**NOTES TO AND FORMING PART OF THE BUDGET**  
**FOR THE YEAR ENDED 30 JUNE 2023**

**1 (a) BASIS OF PREPARATION**

The annual budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Financial reporting disclosures in relation to assets and liabilities required by the Australian Accounting Standards have not been made unless considered important for the understanding of the budget or required by legislation.

**The local government reporting entity**

All funds through which the Shire of Murray controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to the annual budget.

**2021/22 actual balances**

Balances shown in this budget as 2021/22 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

**Budget comparative figures**

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

**Comparative figures**

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

**Initial application of accounting standards**

During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2020-3 Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments
- AASB 2020-6 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current - Deferral of Effective Date

It is not expected these standards will have an impact on the annual budget.

**New accounting standards for application in future years**

The following new accounting standards will have application to local government in future years:

- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates
- AASB 2021-6 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies: Tier 2 and Other Australian Accounting Standards

It is not expected these standards will have an impact on the annual budget.

**Judgements, estimates and assumptions**

The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation of uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets

**Rounding off figures**

All figures shown in this statement are rounded to the nearest dollar.

## 1 (c) KEY TERMS AND DEFINITIONS - REPORTING PROGRAMS

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the Shire's Community Vision, and for each of its broad activities/programs.

### OBJECTIVE

### ACTIVITIES

#### Governance

To provide a decision making process for the efficient allocation of available resources.

Includes the activities of elected members of council and the administrative support available to the Council for the provision of governance of the Shire. Other costs relate to the task of assisting elected members and ratepayers on matters which do not concern specific council services.

#### General purpose funding

To collect revenue to allow for the provision of services.

Rates revenue, late payment penalties, general purpose grants, untied road grants and interest received on investments.

#### Law, order, public safety

To provide services to help ensure a safer and environmentally conscious community.

Supervision and enforcement of various local laws relating to fire prevention, animal control, graffiti and litter control, off-road vehicles and other aspects of public safety, including emergency services.

#### Health

To provide an operational framework for environmental and community health.

Provision of health services, including inspection of food outlets, pest control, noise control and other preventative services.

#### Education and welfare

To provide services to disadvantaged persons, the elderly, children and youth.

Provision of pre-school and senior citizen facilities and welfare and youth programs.

#### Housing

To maintain Shire owned residential properties.

Housing owned by the Shire that cannot be allocated to other programs.

#### Community amenities

To provide services required by the community.

Provision of rubbish collection services, operation of waste transfer stations, protection of the environment, administration of town planning schemes, provision and maintenance of public conveniences and bus shelters and operation of the Pinjarra cemetery.

#### Recreation and culture

To establish and manage infrastructure and resources which will help the social wellbeing of the community.

Provision of facilities and support of organisations and the community with leisure, heritage and cultural activities. This support includes halls, sporting grounds, the Murray Aquatic and Leisure Centre, parks and gardens, canals and waterways, art and community festivals and the Murray Public Library.

#### Transport

To provide safe, effective and efficient transport infrastructure to the community.

Construction and maintenance of roads, bridges, pathways, the works operations centre, parking facilities and plant purchases.

#### Economic services

To help promote the Shire and its economic wellbeing.

Activities associated with building services, economic development, tourism and area promotion, public utilities and the operation of the Dwellingup Trails and Visitor Centre and Food Innovation Precinct WA.

#### Other property and services

To monitor and control the Shire's overhead operating accounts.

Private works, administration and public works overheads and plant operations.

All land (other than exempt land) in the Shire of Murray is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire of Murray.

The general rates detailed for the 2022/23 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

**(c) Objectives and Reasons for Differential Rating**

To provide equity in the rating of properties across the Shire the following rate categories have been determined for the implementation of differential rating.

**Differential general rate**

<b>Description</b>	<b>Characteristics</b>	<b>Objects</b>	<b>Reasons</b>
GRV General	Properties that are used for purposes other than commercial.	The object of this differential rate is to ensure that all residential ratepayers make a reasonable contribution towards the services and facilities provided and maintained by the Shire for the benefit of the residents.	Revenue derived from this category to assist funding the service levels expected by the community, achieving the Strategic Community Plan and minimum standards of performance to which the Council will be measured by the State Government and others.
GRV Commercial	Properties that are used for non-residential purposes.	The object of this differential rate is to apply rates to all income producing facilities, including carparks, to contribute to funding the costs associated with the service provided to these properties.	Lower rate in the dollar compared to residential, to reflect the economic circumstances associated with the significant fluctuation in valuations in the 2017/18 financial year. This will encourage retention of commercial activities during current economic circumstances, providing diversification of the economy and opportunity for local employment.
UV General	Properties that are used primarily for rural, farming or mining purposes.	The object of this differential rate is to ensure that all ratepayers make a reasonable contribution towards the services and facilities provided and maintained by the Shire for the benefit of residents.	Revenue derived from this category to assist funding the service levels expected by the community, achieving the Strategic Community Plan and minimum standards of performance to which the Council will be measured by the State Government and others.

3 (d) NET CURRENT ASSETS (CONTINUED)

**SIGNIFICANT ACCOUNTING POLICIES**

**CURRENT AND NON-CURRENT CLASSIFICATION**

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

**TRADE AND OTHER PAYABLES**

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire of Murray becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

**PREPAID RATES**

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

**INVENTORIES**

**General**

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**LAND HELD FOR RESALE**

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

**GOODS AND SERVICES TAX (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

**CONTRACT ASSETS**

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

**TRADE AND OTHER RECEIVABLES**

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

**PROVISIONS**

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**EMPLOYEE BENEFITS**

**Short-term employee benefits**

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**Superannuation**

The Shire of Murray contributes to a number of superannuation funds on behalf of employees. All funds to which the Shire of Murray contributes are defined contribution plans.

**CONTRACT LIABILITIES**

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

#### 4. RECONCILIATION OF CASH

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows:

#### SIGNIFICANT ACCOUNTING POLICES

##### CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

##### FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

A detailed breakdown of disposals on an individual asset basis can be found in the supplementary information attached to this budget document.

**SIGNIFICANT ACCOUNTING POLICIES**

**GAINS AND LOSSES ON DISPOSAL**

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

## SIGNIFICANT ACCOUNTING POLICIES

### DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - non-specialised	42 to 120 years
Furniture and equipment	4 to 40 years
Plant and equipment	3 to 50 years
Infrastructure - roads	17 to 80 years
Infrastructure - footpaths	15 to 60 years
Infrastructure - drainage	50 to 100 years
Infrastructure - bridges	60 to 100 years
Infrastructure - other	10 to 100 Years
Right of use - buildings	
Right of use - plant and equipment	Based on the remaining lease
Right of use - furniture and fittings	
Intangible assets - computer software	40 years

### AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

**SIGNIFICANT ACCOUNTING POLICIES**

**LEASES**

At the inception of a contract, the Shire assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and a lease liability, at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.
